Abstract

Volunteer spirit is the core of volunteer service, volunteers in the process of long-term volunteer practice activities, the formation of the organic unity of volunteer awareness and values, leading the development of the volunteer cause of the way forward. As the tide of the times rolls on, young college students in the deep new era are shouldering important responsibilities, and we should cultivate the spirit of volunteerism among college students. This article discusses the value of integrating the spirit of volunteerism into the ideological and political education of college students, and explores the significance and path of combining the spirit of volunteerism with the ideological and political education of college students from the perspectives of helping college students to grow their ambition, increase their backbone and build up their foundation.

Keywords

Volunteerism, College Students, Growing Ambition, Increasing Bone Strength, Accumulating Base Spirit.

1. The New Era Implications of Student Volunteerism

1.1. The spirit of volunteerism in the new era highlights the essential requirement of cultivating and practicing socialist core values[1]

The core of volunteer service, volunteers in the process of long-term volunteer practice activities, formed a sense of volunteerism and the organic unity of values, leading the development of the volunteer cause of the way forward. As the tide of time rolls on, the young college students in the deep new era are shouldering a heavy responsibility, we should cultivate the spirit of volunteerism among college students, so that college students can forge their muscles and bones, and strengthen their physique.

1.2. Volunteerism of university students in the new era embodies firm cultural self-confidence [1]

Cultural self-confidence is embodied in the conscious cognition of the value of national culture, in the firm belief in the vitality of national culture, and in the strong confidence in the prospect of national rejuvenation. The integration of the volunteer spirit of university students in the new era into daily life is the outstanding manifestation of firm cultural confidence.

1.3. Strengthening cultural self-confidence means transforming family and national sentiments into practical actions to serve the people

Inheriting and transcending the traditional concept of "the people are the foundation of the state, the foundation is solid and the state is peaceful", we always adhere to the "people-centered", such as "respecting heaven and protecting the people", "the people are the foundation of the state", "the people are the most important thing, the gods of earth and grain are the second thing, and the ruler is the least important thing", "the water can carry a boat, and it can also overturn a boat", etc, which is compatible with the profound significance embedded in the spirit of volunteerism.

1.4. The volunteerism of university students in the new era embodies the world sentiment of building a community of human destiny[3]

Volunteerism has been described as "the most beautiful scenery that warms people's hearts" and is a friendly complement to public services. Young volunteers, hand in hand, have been blowing the wind of volunteerism all over China. From the "Under the Grapevine" volunteer team, which teaches planting techniques and keeps watch over each other, to the "Green Sea Flying Volunteer Team", which is based on investigation and research and helps to revitalize the countryside, and from the grass-roots, youthful teaching team to the "Agricultural Matters in the Farmer's Home" volunteer service project for the benefit of the general public, all of them show the red color of volunteerism rendered by selfless dedication.

In the new era, the new era of college students should uphold the concept of the community of human destiny, personally open the light of selfless dedication, build bridges of mutual help, pass the torch of universal love, the spirit of volunteerism into the soul, infiltrate the heart, in times of crisis, through thick and thin, and overcome the difficulties, overflowing with volunteers, selfless, and fearless, and the spirit of volunteerism to the sun.

In the inheritance of the baton, with the good deeds of mortals, droplets of love, convergence of social warmth, so that mutual help, helping people, selfless dedication to the noble moral character and spirit, in the world stage, with the light of the spirit of volunteering to illuminate every corner of the college student volunteers to vigorously promote the spirit of volunteerism, Lei Feng spirit, with a crop after crop of the determination to do and a baton after baton of the strength of the run, to excel, sharpened, sharpened, the will of the young generation with the passionate blood, to defend the volunteer faith.

2. The Value Implications of Integrating the Spirit of Volunteerism into the Ideological and Political Education of College Students

2.1. Cultivating political identity and encouraging contemporary university students to grow in ambition and ideals

Political identity is a response to the value concept, behavioral expression, to achieve the recognition of the political subject and the convergence of the situation, mainly embodied in the value of identity, identity of interests and institutional identity, to integrate the spirit of volunteerism into the ideological and political education of college students, and vigorously carry forward the spirit of volunteerism of "dedication, fraternity, mutual assistance and progress".

To the new era of civilization practice station as a position, the organization of college students to participate in the "volunteer service to send care civilization practice tree new wind" volunteer service, college students "three to the countryside" social practice activities, volunteer into the community, youth volunteers, community warmth, legal education, protection of the environment, help the countryside, and other volunteer services, a practical understanding of the needs of the masses, a change of identity, from the "school door" into "grass-roots farming door", buckle open the "door to the home of the masses". Students will be full of joy and enthusiasm, there will also be difficulties in the confusion of the uncertainty, by overcoming the difficulties, unswerving struggle, as long as the red heart to the party, a firm political position, dream forward, with a work journal, growth experience, with the mud under the feet again and again, the sweat of the lapel to witness the youthful years.

The young generation should set up a big ambition, set up lofty ideals, through the immersive experience of volunteerism, firm ideals and beliefs, from following the light, rooted in the grassroots, service to the masses, going to the big stage of volunteerism, full of enthusiasm to display their talents, and strive to use sweat to write a youth without regrets. To close to the

light, the practice of the practice of the sun, to the sun, deep into the fields, with feet to measure the land, deep into the hot practice, to understand the world situation, the state of the party and the people, and always maintain the love of volunteerism, enthusiasm, enthusiasm back to the people, in the grass-roots level of the vast fields of the practice of not slacking off, all the way to the planting all the way to the mountain flowers, a long time for the work. And then to become light, to move forward, take root and blossom.

From the "half-knowledge" little new to volunteer service "expert", through the publicity of theory and policy, so that the masses of people feel the temperature of theory, the charm of thought and cultural heritage, and constantly strengthened to listen to the party, the party's confidence and determination to follow the party, and cohesion to promote the cause of volunteering the development of high-quality consensus of the people.

In the face of the new situation, colleges and universities should do a good job of integrating the spirit of volunteerism into the ideological and political education of college students, should adhere to the systematic thinking and overall concept, from the concept to the method, from the content to the expression, from the theory to the practice of multi-dimensional force, comprehensive mobilization of human resources, strengthen the ideological and political teachers, counselors, for the ideological guidance of college students to set up volunteer positions, so that the students in the need of the place to show their great ambition, and determined to start up a firm conviction! To open up the path of volunteer service development, through personal experience, guide students to sink their hearts and bodies, into the masses, to do everything, everything has a reply, study hard, become able to sit down to write, steady down to do, stand up to talk about the new era of college student volunteers. To truly realize full coverage, give full play to the synergistic effect, drive the struggle for "acceleration" with the synergy of educating people, and cultivate a new era of voluntary youth.

2.2. Driving value guidance, honing the hard backbone and strong will of contemporary college students

The backbone of young people is embodied in their strength, courage and power. Organize students to go deep into the community to carry out "Lei Feng spirit bloom new light" group day activities, college student volunteers in the voluntary service, and the old people in the nursing home to listen to the conversation, care for the care of the physical condition of the elderly, popularize the knowledge of health, clean up, and send warmth to the elderly with care and love, into the community, in-depth grass-roots level, so that college students to carry the responsibility of the shoulders of the burden of the sturdier.

The direction guided by the party is the direction of youth struggle, college student volunteers drop of greetings, attentive care, has made the masses of the closest relatives of the deeper feelings, stoop down, put down the frame, take the initiative into the middle of the common people, sincerely for the people to solve practical problems, the students will realize that when we treat the people as relatives, they will also be treated as "people on the tip of the heart". From this inner depth will be more profoundly feel the sincere heart to the party, youth is not lost. Sensing the temperature of the Party with the heart, the practice process will be more certain.

Nowadays, there are different kinds of volunteer services and flourishing volunteer activities, such as warming up the empty-nested elderly, caring for the left-behind children, helping the poor and the disabled, cleaning up the environment, publicizing the knowledge and regulations, and carrying out civilized persuasion, etc. After experiencing these activities, college students will be able to strengthen their muscles and bones, sharpen their sense of awareness, and be brave enough to overcome the problems when they face difficulties in the workplaces after graduation. As the eagle strikes the sky and the wind is strong, and as the roc flies in the sea, let

the college students' volunteer service become a living force and strong, and shoulder the responsibility of youth.

2.3. Sharp and innovative training, helping contemporary college students to build up their strengths and abilities.

The important task of ideological and political education for college students is to deeply explore educational resources in social practice and educational teaching. To enhance confidence and confidence. The young people of the new era will develop their true skills through volunteer service, join the "Three Supports and One Support", "Teachers on Special Assignment" and "Western Program" with mission and responsibility, and set sail where the motherland needs them to break the waves.

Talent is the most important factor in ruling a country. From college student volunteers to young cadres rooted at the grassroots level, it is with the practical attitude of "overcoming difficulties and rising to the occasion" that they ignite the spark of struggle of "smoothing out the bumps to become an avenue, and the more difficult and dangerous, the more they move forward". Silent cultivation, day and night fierce battle, with the pencil to write the story of the field, the initial heart engraved on the ground. From Wang Yaping, who has realized the dream of "building a starry river" and fulfilling the dream of space, to Jim Lin, who has fine-tuned the technology of mushroom and grass by "sowing the earth with hard work", to Ai Aiguo, who has pursued the excellence in the welding flower by "doing it to the best, and doing it to the extreme".

The spirit of volunteerism is inspiring college students to sharpen their will, unite knowledge and action, be creative, be willing to dedicate themselves, build up their strength, and learn real skills. When college students develop "long skills", they will have "confidence" in employment. Colleges and universities are responsible for realizing phased and diversified employment. Therefore, to build a good platform for volunteer service and social practice activities, to cultivate students' brain power and pen power, and to cultivate high-quality, complex and real skills.

2.4. The integration of the spirit of volunteerism into the ideological and political education of college students path analysis[2]

2.5. Strengthening the foundation and enhancing the awareness of the cultivation of the voluntary spirit of civilized practice

It is necessary to effectively strengthen the education of socialist core values in the new situation, and to arm and mold young people with the spirit of volunteerism.

First, strengthen theoretical learning, firm ideals and beliefs, so that there is faith in the heart. To carry out the learning matrix of "ideological refinement, political background, practical experience and professionalism", in-depth study of theoretical knowledge, through the "Learning Power", to create a "classroom on the fingertips", and through the keynote speeches of young college students, to realize the theoretical learning from the fingertips to the side.

Through the organization of theoretical learning "classic recitation" listening column, writing learning experience, exchange and discussion, the establishment of online WeChat learning and exchange platform, real-time push "General Secretary's week", "civilization practice", "volunteer style", "ecological and environmental protection", "natural science and technology", "practical exploration" and other content, education and guidance of young college students to enhance the ideological level, set up a high faith beliefs, and use the theory to guide practice, enhance the enthusiasm and effectiveness of theoretical learning. It also aims to enhance the enthusiasm and effectiveness of theoretical learning by guiding practice with theories.

The second is to carry forward the spirit of volunteerism, so as to have a shoulder to bear. Organize young college students to carry out volunteer activities, through volunteers into the community, condolences to homes for the elderly, science knowledge into the campus, energy efficiency service enterprises and other voluntary activities, into the community, to help grass-roots development, care for condolences to the elderly in homes for the elderly, to help the elderly to clean up, daily care of life, to set up a cultural stage, singing red songs, perform stage plays, operas and other programs to create a strong atmosphere of respect for the elderly, love the elderly and help the elderly.

In order to show love to the left-behind children, donate books to the children, lead the children to carry out the "Big Hands Hold Little Hands" tree-planting activities, volunteer teaching, let the children feel the care and friendship of the university students. Carrying out activities of popularization of science knowledge in schools, combined with relevant specialties, for the community, primary and secondary schools and kindergartens, popularization of red cultural bases, herbariums, school history museums, leading students into the sea of popular science knowledge.

In-depth enterprises, school-enterprise cooperation, the establishment of practice bases for college students, so that college students in-depth enterprise internship practice, exercise the ability to learn the skills at the same time for the enterprise injection of vitality, help the development of enterprises, service local economic development, combined with the actual work of volunteering, mutual exchanges and learning, summarize the status quo, think about the future prospects for development, personal dreams into the national dream, cultivate a sense of family and country in the graduation and employment in the "Three support one help", "special teachers", "western plan", the new era of creating civilization is the central force of volunteers, to carry out a variety of cultural and sports activities, writing a new picture of civilization, warm-hearted service to play to show the new era of college students polish the color of youth, stimulate the power of the youth of the spirit of the campus culture, the flag of the creation of civilized campuses to contribute to the power.

Third, the construction of the youth team, to achieve the power of progress. The young generation shows the vitality and sharpness, the young generation should have excellent skills, in order to render the "volunteer red", the inheritance of the spirit of volunteerism, the spirit of Lei Feng as a "national idol" volunteers, youth team building as the sunshine under the sprouting flowers, volunteers convergence of starbursts, holding up the torch of passionate, in the school of the Harbor to build up the theoretical fundamentals of the grass-roots front-line honing skills, to carry out the "Tree Advanced Typical, deepen the example of leadership" volunteer training sessions, from the daily office, publicity effect, civilization, ecological protection, to the civilization of the countryside, to make progress. Deepen the leadership of role models" volunteer training sessions, from the daily office, science knowledge, publicity effects, the creation of civilization, ecological protection, to the civilization of the countryside, scientific and technological innovation, anti-fraud propaganda, communication skills, and other aspects of the teaching, and actively join the community to create a new knowledge of the micro-talking stage, in the popularization of knowledge for the masses and primary and secondary school students at the same time, but also to get the theoretical enhancement of their own.

It is also necessary to publicize the outstanding deeds of individual volunteers through the establishment of a theoretical lecture group, digging out outstanding and advanced models, explaining the skills of volunteer service and the deeds of volunteer service with vivid cases, stimulating the service consciousness of college students, creating the spirit of volunteering in the new era, and carrying forward the spirit of Lei Feng. Special lectures are conducted from the perspectives of "China's Good Doctors", "China's Good Teachers", "Women's Volunteer Service" and "Top Ten Moving Characters" to guide college students to draw on the power of

role models, and to realize the dual guidance of students' own growth and understanding of the spirit of Lei Feng.

2.6. Volunteerism, creating a favorable environment for the cultivation of volunteerism and enhancing the effectiveness of such cultivation

First, multi-dimensional combination, to create a new matrix of civilization practice. Through the integration of government service centers, party work departments, cultural squares, cultural activity stations, red bases, party history education bases and other resources, to build strong use of the new era of civilization practice positions. Combined with the construction of ecological civilization, civilized city building, help farmers to promote agriculture, teaching and education, and other work to carry out a wide range of "beautify the urban environment, create a livable life", "aspiring young people to learn from Lei Feng, full of civilized city", "volunteer service to refresh the hearts of the people to cultivate the era of the new style of volunteering" and other series of thematic voluntary service activities.

Pre-publicity and mobilization, through the setting of the recruitment of volunteers column, issued "continue the flame of volunteers forever" volunteer recruitment notice, widely mobilized college students to actively participate in the service of the community, grass-roots level, and personally feel the hard work of the feeling of the country's greatness, the sweat of the sweat in the big stage of volunteer service.

In the preparation stage, we need to consult teachers and colleagues who have experience in grassroots service, to learn the skills and ways and means of volunteering, especially in the process of teaching courses with primary and secondary school students, how to pass on in a silent way, such as PPT lectures, common depiction of the wisdom tree, interactive links, "big hands holding small hands" planting and reforestation thematic party activities, not only to achieve the concept of ecological environment protection, but also immersive! Lead primary and secondary school students to plant trees with their own hands, establish the concept of afforestation and environmental protection, hang a growth tree, and grow up together with their hands. The government service center's one-window office for volunteers to carry out training, the business knowledge condensed, volunteers through overtime and overtime way to familiarize with the business, better for the masses to provide help on behalf of the office, the postal office and other services, really for the masses to solve the problem, do practical things.

The second is to gather strength and create a good environment for the development of volunteer service. The establishment of professional, standardized new mode of volunteer service, to create an all-round, multi-dimensional youth wind volunteer service, stimulate the enthusiasm of college students to participate in volunteer service. To create the theory of the fly into the homes of ordinary people cultural activities station, civilized practice you and his" propaganda posters, the creation of a civilized campus, to create a quality of life public service announcements, distribution of the spirit of volunteerism shine leaflets, the use of LED screens, banners and other media publicity display civilized slogans, to enhance the degree of knowledge of college students.

The real focus on the needs of the masses, the practical solution to the urgent difficulties and worries of the masses and the enrichment of the spiritual life of the masses as the theme of the enrichment of the carrier of volunteer services. Joint news media in-depth streets, communities and other grass-roots interviews and reports on the implementation of volunteer activities, the use of microblogging, microblogging and other new media to expand the scope of publicity and create a good social atmosphere.

Third, multi-level participation, all-round coverage, for the inheritance of the spirit of volunteer empowerment and effectiveness. Actively build "carry forward the spirit of volunteerism, cohesion of the power of progress", to create a place where the masses need to have a volunteer red figure, adhere to the public demand-oriented, normalization of colorful volunteer activities,

improve the level of refinement of the level of volunteerism and professionalism. The vast number of volunteers to participate in an orderly manner in various positions, such as in the community residential buildings, bus stops and other places to clean up small advertisements, clean up environmental sanitation, clean up the community, squares, parks and other places residual garbage, and publicize to the masses to protect the environment of the concept.

University student volunteers and townships, streets, communities in both directions to run, in-depth elderly homes and vulnerable families to carry out caring services, light into a torch, convergence of love and shine a beam of light. Also in the process of volunteering for the residents to explain the classification of garbage, to help ease neighborhood relations, conflict mediation, policy interpretation, joint theoretical learning, understanding of current events, anti-drug propaganda, anti-fraud propaganda, watch educational videos, popularize the rights of young people to protect the rights and interests of the civilization of the practice of volunteering activities, comprehensively enhance the well-being of the residents to promote the spirit of volunteerism, planting a thick layer of soil.

2.7. Improvement of institutional mechanisms for educating people and fostering high-quality talents

First, we are actively building outstanding volunteer projects and promoting the enhancement of the quality and effectiveness of volunteer services. We have carefully organized a series of practical volunteer activities, focusing on the creation of cultural and artistic volunteer services, volunteer services to help people's livelihoods, scientific and technological volunteer services, home-schooling volunteer services, cultural and tourism volunteer services and other volunteer projects, and have promoted the formation of a pattern of care and service with the participation of the whole society through tutoring and training, sympathy performances, home-visit tutoring and book donations to promote the healthy growth and all-around development of students.

Second, the effective integration of multiple resources, and actively create a new model of volunteer service. Carry out carry forward the spirit of the Northeast Resistance League and inherit the red gene - rural revitalization and grass-roots youth gathering force at the time of the "three to the countryside" practice activities, relying on the war sites, martyrs' cemeteries and other red resources, to take the lead in creating the red culture and educate the people of the first practice and an important demonstration site. Innovating the content and form of volunteer service, constantly exploring innovative modes of work, insisting on organizing and carrying out volunteer service activities that are diversified, scientifically useful, rich in content, lively and interesting, and enjoyable, striving to enhance service capacity, and promoting caring services for the masses with all our hearts and souls. The professional advantages and volunteer service in-depth integration, in-depth grass-roots units, experience grass-roots work, listen to the people's voices, understanding of public opinion, the investigation and research, field research, seminars and exchanges, and promote the transformation of the results of the development of enterprises, rural revitalization, and effectively enhance the public's sense of access, sense of well-being, sense of security, and to achieve the real sense of access to the empowered college students to volunteer service.

Thirdly, we have built and strengthened the main body of practice at different levels to consolidate the foundation of volunteer service. In the Civics and Political Science program, we teach the stories of volunteer service, effectively cultivate students' sense of family and country, and carry out ideological and political education in the light of reality.

Actively mobilize the majority of volunteers to join the service team, growing the volunteer service team, through extensive publicity, to inspire college volunteers to integrate their personal dreams into the national dream, the heart of the world, through the wonderful case for college students to put themselves in the shoes of explaining the story of volunteering, to

inspire the volunteers to continue to struggle, continue to write the unfinished chapter of the new chapter of volunteering, to achieve the cumulative convergence of water into an ocean of the tangible results. Strengthen the selection of backbones, select advanced models that play an exemplary leading role in volunteer service, carry out one-on-one pairing, passing on the work, focusing on the selection of people who are familiar with the front line, love the grassroots, and have a high degree of acceptance by the public, and take the lead in the formation of volunteer service teams. Adhering to the multi-level training, combining practice and training to strengthen volunteers' professional skills and management ability, constantly improving volunteers' service consciousness, forging service ability and enhancing service level.
